

**UNIVERSITY COLLEGE BIRMINGHAM  
CODE OF PRACTICE ON EXTENUATING  
CIRCUMSTANCES**

**Approved by Academic Regulations Committee**

**Reviewed 12th June 2025**

**Date of next Review 12th June 2026**

## **Index**

1. Introduction
2. Grounds for Extenuating Circumstances
3. Evidence
4. Deadlines for notification of Extenuating Circumstances
5. Procedure
6. Extenuating Circumstances – Possible Outcomes
7. Fit to Sit Policy
8. Deferral of Studies
9. Organisation of the Extenuating Circumstances Panel (ECP)
10. Appeals
11. False Claims

## 1. Introduction

This Code/Policy/Regulation will use “student” to refer to all undergraduate, taught postgraduate and Block students (for example, Hong Kong Block students) and HE apprentices who are enrolled and registered at UCB.

- 1.1** During a period of study, students may encounter significant personal difficulties that adversely affect their ability to study or to complete assessments and examinations. These personal difficulties are referred to as ‘Extenuating Circumstances’.

In general terms, extenuating circumstances must be:

1. Significant (they have more than a minor impact on the student)
2. Unexpected (the student must have had no prior knowledge of the event)
3. Unpreventable (there were no reasonable steps that could have been taken to avoid the event)
4. Relevant (the student must be able to link the event, and its impact on the period for which the claim is made)
5. Corroborated (it must be independently verifiable, and the evidence must meet the University requirements – see point 3 for evidence guidance)

- 1.2** Extenuating Circumstances can normally be considered for enrolled HE students (Undergraduates and Postgraduate students)

- 1.3** Extenuating Circumstances may occur at any point in the academic year and may affect any form of assessment including coursework and examinations and may result in absence from teaching.

- 1.4** Extenuating Circumstances applications can be considered only for final assessments and examinations. They do not apply for draft submissions, ethical clearance forms, mock exams, missed classes and poor attendance.

- 1.5** It is the responsibility of the student to report Extenuating Circumstances at the earliest possible opportunity, within the appropriate timeframe. This should be as close as possible to the date of the affected assessment (around 2-3 weeks before the due date or closer) Applications should not be submitted so far in advance that the impact of the extenuating circumstances cannot be assessed, but should also be submitted no later than 10 working days after the original due date and before the Board of Examiners meeting.

- 1.6** A successful Extenuating Circumstances application does not excuse a student from an assessment, as learning outcomes for the module(s) affected must still be undertaken. It may lead to the removal of late penalties for assessed work or a further opportunity to attempt an assessment.

- 1.7** There is a limit to the number of Extenuating Circumstances applications, based on the same circumstances, where sufficient mitigation had already been made. The eligibility of the repeated claims will be determined by Registry.

## 2. Grounds for Extenuating Circumstances

**2.1** Extenuating Circumstances are circumstances that are exceptional, unforeseen and that significantly disrupt a student's academic performance. They may include (but are not limited to):

- Significant or serious instances of physical or mental illness, accident, or injury at the time of the assessment or during preparation for it. A student must demonstrate that they have consulted a medical practitioner in a timely manner regarding the issue(s).
- Undergoing a period of self-isolation following NHS guidelines which impacts the ability to undertake practical sessions contributing to final module assessment.
- A significant deterioration of a permanent or chronic condition, which the student has already reported and is already covered by reasonable adjustment or if reasonable adjustments do not address the impact of the condition and still leave the student at a disadvantage. Worsening of a long-term existing condition, formally diagnosed by a medical practitioner.
- The recent death or serious illness of a close family member, a close friend or dependant where significant caring support is required. Across the sector this is typically considered as six weeks prior to the date of application; however, we will consider all applications on a case-by-case basis. After that time, formal evidence of the impact of the bereavement will have to be provided.
- Family crisis or emergency directly affecting the student at the time of the assessment.
- Unforeseen significant caring responsibilities
- Absence covered by Paternity and Maternity Leave, Shared Parental Leave, and Jury Service (deferral of which has been denied by the Court).
- Exceptional and unforeseen financial hardship or significant change in personal circumstances (e.g. divorce of student, fire, court appearance by student, acute accommodation crisis).
- Being the victim of bullying, harassment or threatening behaviour
- Significant change in employment circumstances beyond the control of the student (Part-time students only)
- Victim of crime or involvement in a criminal case (e.g. as a witness)

**2.2** Circumstances that will not usually be considered as Extenuating Circumstances include:

- Coughs, cold and minor illnesses, even if supported by medical evidence.
- Minor illnesses of relatives (unless they are the main or shared carer)
- Temporary self-inflicted conditions, e.g. hangover, bad health.
- Routine medical appointments.
- Computer or other IT problems such as not following submission instructions, leading to incorrect, incomplete, or non-submissions, IT

Commented [AH1]: Can we discuss this please?

equipment damage/loss.

- Time management or personal organisation, failing to allow enough time to prepare for submission or complete the assessment.
- Typical short-term assessment/examination stress and low mood, which is expected and normal, unless a flare-up of a pre-diagnosed illness/condition.
- Pressure of academic workload.
- Long-term health condition, either physical or psychological, where treatment or additional support/arrangements or reasonable adjustments are in place to mitigate.
- Misreading or misinterpreting the assessment/exam, assessments due dates, remit/timetable or locating the correct details.
- Assessments or examinations with similar deadlines and due at the same time.
- Repeated applications based on the same circumstances, where sufficient mitigation had already been made for the same circumstances.
- Planned non-academic, personal or domestic events and activities such as moving house, weddings.
- Holidays or travel arrangements.
- Employment and consequences of employment or other types external work (unless due to unforeseen financial hardship).
- Sports activities and events.
- Late applications or late disclosure of the circumstances.
- Additional extension on the top of agreed 10 working days.
- Routine operational issues for employers affecting employees

**2.3** University College Birmingham has put in place arrangements to make reasonable adjustments for students with additional needs. As a result, if a student has a disability, they may apply for Extenuating Circumstances based on factors not connected with the disability or based on unforeseen effects of the disability or if adjustments were made after the assessment.

**2.4** Students with a granted reasonable adjustment support plan, do not need to apply for Extenuating Circumstances if the support plan refers to concessions for 10 day adjusted hand-in date on coursework and reports; practical and presentation type assessments (for more information about Reasonable Adjustments and Alternative Assessment please see the [current Policy](#)).

**2.5** If Students with reasonable adjustment plans are not able to meet given concessions of 10 working days adjusted hand-in date on assessments, Extenuating Circumstances can be considered only for the re-sit period. An additional extension on the top of the agreed concession won't be granted (subject to meeting Extenuating Circumstances criteria. see point 2).

**2.6** The submission of a claim for Extenuating Circumstances included in the list shown in 2.1 (above) does not imply that the claim will be accepted as other factors will be taken into account including the time of the relevant assessment and the likely impact of the event on the assessment.

**2.7** Students are expected to plan their workload and allow sufficient time to cope with the demands of both employment and study workloads.

**2.8** UCB have in place various learning support options:

**a)** Centre for Academic Skills and English (CASE) offers tailored support to all students at UCB:

- Academic Skills Centre (ASC), based within CASE, providing academic support through one-to-one or group sessions.
- Support Plans – students can be 'screened' at first stage to identify needs, to open opportunities to offer specific in-house tuition/support.
- Online support – digital resources to help students develop their academic skills online.
- Disability Support – offering support and advice for students with additional needs or disabilities.

(More information about [CASE](#))

**b)** Our Student Engagement team at University College Birmingham is here to support all students during their university life, ensuring students have a single point of contact to discuss any issues they may be having while studying at UCB (more information about [Student Engagement team](#)).

**c)** We also have a free and confidential Health & Wellbeing Service which is open to everyone. The service strives to promote and encourage healthy lifestyles and positive mental health, and the team is on-hand to help students manage any difficulties or concerns they may have (more information about [Health and Wellbeing service](#)).

**d)** Safeguarding and Harassment Advisors, providing a safe and secure environment across all UCB campuses. We have a range of staff trained as Safeguarding and Harassment advisors, should a student need any support, advice or guidance on matters relating to Safeguarding or Harassment. (More information about [Safeguarding](#))

**e)** Apprentices will discuss with UCB and the employer adjustments needed to meet the requirements of the relevant apprenticeship standard

### **3. Evidence**

**3.1** Submissions for Extenuating Circumstances must be accompanied by independent third-party evidence which must confirm the existence of the Extenuating Circumstances and state how this has affected the student concerned at the time of the assessment.

**3.2** Examples of acceptable third-party evidence include (see Evidence Guidance in Appendix 1):

- GP/Consultant/Hospital letter on headed paper.
- Letter from a Solicitor.
- Letter from a Counsellor or other authority.
- Copy of the funeral booklet/order of service or Death certificate.
- Bank Statement or letter from the Student Loans Company, Court letters etc.
- Police Case Reference number and report. The crime reference number on its own will not be sufficient to support a claim and a medical letter or police report explaining the effect would be more appropriate.
- For apprentices, supportive testimony from recognised authority contact with the employer

**3.3** If the evidence is in another language the student must provide both a copy of the original document and a certified translation into English. UCB may seek to verify the accuracy of the translation provided and reserve the right not to accept any evidence that is unable to be translated. If a certified translation is not available, UCB could seek support from UCB staff for translation.

**Commented [AH2]:** Can I check please whether this happens consistently in practice? If translation is systematically required, it puts a possible financial barrier to international students' engagement in the process

**3.4** Evidence provided does not have to be an original document. We accept photocopied/scanned documents, but we may request to see an original document for authentication purposes. All photographs/screenshots must be of good quality, not faded or cropped and all information should be clearly displayed. Photographs of injuries/illnesses or videos of the events are not appropriate and will not be considered.

**3.5** If a student is waiting for the evidence and are worried it will not arrive in time before the extenuating circumstances deadline, they should still apply for extenuating circumstances, but highlight that they are still waiting for evidence and report when it is likely to arrive.

**3.6** UCB reserves the right to check the legitimacy of any evidence provided. If any submission is found to be fabricated or altered, then the student may be investigated.

**3.7** Medical evidence must contain information including:

- a) Confirmation that the ongoing treatment/medication is affecting the student.
- b) Dates of any consultations with a GP/Consultant and outcomes of the meetings.
- c) Dates of the affected period of time (this must cover the date of the assessment).
- d) Information on how the illness or medication has affected the student's performance, ability to attend University, concentration or completion of assessments.

**3.8** The dates of the evidence must be relevant with the date of the affected assessment.

**3.9** A letter from a GP stating that the student was seen and that the student told

them that they had been ill will not normally be accepted as evidence.

- 3.10** The Chair of the Extenuating Circumstances Panel (ECP) Chair or nominee will use the criteria listed above to decide whether the evidence submitted is acceptable. The student is responsible for providing sufficient evidence; Registry will not make enquiries or obtain evidence on a student's behalf.

A student may be reluctant or uncomfortable disclosing relevant information pertaining to private or sensitive issues or mental or physical health difficulties which are affecting their academic performance, but this cannot be used as an excuse not to do so. We cannot consider circumstances that are not disclosed (see section 2.8 for more information on available support).

- 3.11** If a student does not want Registry to share the evidence or confidential details of their application with their lecturer/personal tutor or their nominee, please let UCB know at the time of the application.
- 3.12** All applications for Extenuating Circumstances are treated confidentially and only concerned staff will review applications and evidence provided.
- 3.13** To ensure fairness to all students, it is the student's responsibility to fully disclose all relevant extenuating circumstances within the timeframes given. Once the Exam Board's result is published on the Student Dashboard, students will not be able to submit Extenuating Circumstances and retrospective applications.
- 3.14** It is the student's responsibility to check if the information on their application is correct and the desired modules and assessments have been selected. Once the decision is made and EC claim is closed, no amendments can be made to the application.

#### **4. Deadlines for notification of Extenuating Circumstances**

- 4.1** The Extenuating Circumstances procedure must be clearly publicised in handbooks, induction materials and Canvas. All students are responsible for making themselves aware of the criteria and complying with deadlines.
- 4.2** It is the student's responsibility to provide Registry with the appropriate application and accompanying evidence within the specified deadline (please refer to point 4.5)
- 4.3** Senior Lecturers, Personal Tutors or their nominees cannot make submissions on a student's behalf, apart from in exceptional circumstances.
- 4.4** Extenuating Circumstances will usually only be considered by Registry if submitted within 10 working days after the assignment deadline or examination. The exception to this is where it is impossible for the student to submit their application due to medical reasons, locality reasons and other factors that will be determined by Registry.

**4.5** Evidence for an Extenuating Circumstances claim should be submitted within 10 working days after submission of the application and before the Board of Examiners meeting. The exception to this is where it is impossible for the student to submit their evidence due to medical reasons, locality reasons and other factors that will be determined by Registry.

**4.6** A working day is deemed to be Monday-Friday, excluding Public Holidays and days on which University College Birmingham is closed.

**4.7** Extenuating Circumstances applications cannot be submitted once the Board of Examiners has met and the results of the Exam Boards are published.

## **5. Procedure**

**5.1** Decisions on whether a claim for Extenuating Circumstances is valid will be based on the following factors:

- The severity of the problem and length of time affected.
- Supporting documentary evidence.
- Relevance on how close the affected period is to the point of assessment.

**5.2** The Extenuating Circumstances application is expected to be completed online on the UCB Portal accessed via the Academic Registry tab and appropriate supporting evidence needs to be uploaded online or emailed to Registry directly [extenuating@ucb.ac.uk](mailto:extenuating@ucb.ac.uk).

**5.3** Upon receipt of the relevant Extenuating Circumstances application and appropriate evidence, Registry will then process the application. The application will usually not be considered without appropriate evidence and correctly completed application. The eligibility of the application will be assessed by Registry. The appropriate lecturer/personal tutor or their nominee will be consulted with regard to the extenuating circumstances and if the evidence and reasons for ECs meet the criteria (see point 2) and are supported by the lecturer/personal tutor or their nominee then the application may be accepted by Registry. Once a decision has been made, the status of the application will be updated on the UCB Portal and it is then the student's responsibility to check the progress of their application.

**5.4** If a student does not wish Registry to share the information provided on their application with their lecturer/personal tutor or their nominee, please inform Registry as soon as possible. (See our GDPR resources section on the [website](#).)

**5.5** If the evidence is deemed to be insufficient or the reasons for Extenuating Circumstances do not meet the criteria stated or the lecturer/Personal Tutor or their nominee does not support the application, then the application will be referred to the Extenuating Circumstances Panel (ECP) (see section 9) at the end of semester Extenuating Circumstances Board. Once a decision has been

made, the status of the application will be updated on the UCB Portal, the student will receive automated email notifying them that a decision has been made and it is the student's responsibility to check the progress of their application.

**5.6** The result of the claim of Extenuating Circumstances will then be considered at the Board of Examiners meeting. Details of the Extenuating Circumstances claim are treated confidentially, and the nature of the claim is not discussed at the Board of Examiners meeting.

**5.7 Apprenticeships**

When applying for Extenuating Circumstances for Apprenticeships, if the assessment is a UCB module then the UCB Extenuating Circumstances procedure must be followed. Extenuating Circumstances could be awarded outside of the usual panel if the timing of the assessment would make it unreasonable to delay. However, all decisions must be made by more than one person and include the University Secretary and Academic Registrar.

**6. Extenuating Circumstances – Possible Outcomes**

**6.1 If accepted:**

- The student is permitted to submit the assignment late, within 10 working days after the original due date. If the student cannot meet that deadline, then the Board of Examiners may offer another opportunity to submit assignment as a first attempt at the next available opportunity.
- The late assignment is marked without late penalty if handed in before the final hand-in date. The final hand-in date for all work is exactly 10 working days after the original assignment deadline.
- Applications for modules with 40 credits or 60 credits such as Dissertations/Research Projects will be treated differently, and a new submission date will be agreed. The new submission date will be either a 10-day extension or a 6-week extension after the original due date and will be decided based on a student's individual circumstances and dependent on the amount of work remaining. A longer extension may be provided in extreme circumstances such as hospitalisation or a serious medical issue. This new hand-in date will be provided to the student by Registry. The student will be required to complete a schedule of completion for the Project, providing an estimated completion date. Once the new deadline is provided by Registry, the student is required to submit their Research Project by the given deadline and late submissions are not accepted. If the Research Project is not submitted by the given due date, the student needs to re-apply for further Extenuating Circumstances, otherwise it will be classed as non-submission.
- The student sits the examination as a first attempt at the next available opportunity.
- An additional re-sit may be granted if the Extenuating Circumstances apply to the reassessment period.

**6.2** Depending on the type of assessment that the Extenuating Circumstances apply to and the student's academic profile, there may be several different outcomes agreed by the Board of Examiners for applications that are **not**

**accepted, which includes:**

- The student re-sits the examination at the next available opportunity.
- The student re-sits the assignment at the next available opportunity.
- The late assignment is marked, and the late penalty is applied by the Board of Examiners.
- If the Extenuating Circumstances application was for a resubmission this may result in a failed module.

A re-sit opportunity may be offered if a student achieves at least 60 credits or more for the academic year, where less than 60 credits have been achieved, the student may be required to repeat with attendance all failed modules.

Please note if a student has not applied for Extenuating Circumstances or their Extenuating Circumstances application was not successful, they can submit their assessment late but only within 5 working days after the original due deadline, there would be a penalty unless extenuating circumstances were agreed.

Late work will not be accepted beyond 5 working days after the original due date, unless Extenuating Circumstances are granted. A student need to wait until the Board of Examiners offer another opportunity to re-submit the assignment. The outcome of the Board of Examiners will be published on the Student Dashboard and it is the student's responsibility to check the decision.

**6.3** The Extenuating Circumstances Panel cannot change individual assessment or module marks. For reference see [Academic Regulations: Part 2: Assessment, Progression and Award](#).

## **7. Fit to Sit Policy**

**7.1** If a student believes they have a valid reason (such as illness) for not completing a piece of assessment in advance, they must follow the University Fit to Sit Policy, which includes the need to provide independent evidence in order to ensure that each case is assessed fairly as follows:

- Before submitting work, or attend examinations, students are required to declare themselves as 'fit to sit' by confirming they are not aware of any extenuating circumstances which could affect their performance during the relevant assessment and therefore cannot subsequently claim mitigation. If a student does submit work for which an extenuating circumstances claim has already been granted, it will be marked, the grade awarded and the Extenuating Circumstances claim nullified.

If a student is taken ill during an examination, they should inform the Senior Invigilator immediately and submit an Extenuating Circumstances claim as soon as possible, via the portal.

During the exam period if a student is experiencing extenuating circumstances and thinks they are NOT FIT to sit a particular exam, then they should NOT sit the exam. You will need to submit an extenuating circumstances application via the portal explaining the details and this should include independent evidence

outlining the severity of your circumstances and why you are not fit to sit the exam. The Registry team will then contact them about their application and provide guidance and support. It is a student's responsibility to inform the department via their application as to why they are not fit to sit an exam and to provide appropriate supporting independent evidence. If they have very severe mitigating circumstances during an exam period, we may recommend they defer the entire examination period to the next available opportunity. Students should speak to the Senior Lecturer and inform them that they wish to request an exam deferral and then submit their request via the portal. Apprentices should also liaise with the Director of Apprenticeships and their employer.

If a student has **severe extenuating** circumstances, we may recommend delaying an exam and sitting (as for the first time) at the next available opportunity. Please note this is not an exam deferral, which only applies when a student defers all the exams within an exam period. If a student has attended their exam, we will normally assume they were fit to sit unless there is evidence that they experienced **severe extenuating** circumstances that had not been predicted during the exam.

Other possible actions by the Exam Board may include offering a further opportunity for re-examination, or we may recalculate a module mark based on the elements of the assessment which were not affected by the **extenuating** circumstances. However, neither the Board of Examiners nor the Extenuating Circumstances Panel are permitted to change a module mark. It may be recommended that no action is required in terms of progression decisions, but the circumstances will be carried forward and be considered when determining the degree classification at a future meeting of the Board of Examiners. Programmes with PSRB requirements may require students to undertake assessment at a later date and will not allow for adjustment.

- Retrospective claims for mitigation may be considered exceptionally within 10 working days of the original examination or submission date, and prior to publication of results, after which these must follow the University Academic Appeals procedure (see point 10) no later than 10 working days after the publication of results.
- Students who are affected by unforeseen circumstances during an examination, may be able to claim extenuating circumstances. If granted, no grade will be awarded for the examination at the first attempt.

## **8. Deferral of Studies**

**8.1** An application to defer studies can be made if a student's ability to attend and participate in the programme of study on which they are enrolled is or will be adversely affected by Extenuating Circumstances over an extended period of time. For further information see the [Code of Practice on Leave of Absence Procedures](#). For Apprentices, breaks in learning can only be agreed by the Director of Apprenticeships.

## **9. Terms of Reference of the Extenuating Circumstances Panel (ECP)**

**9.1** The Extenuating Circumstances Panel consists of:

- University Registrar and Secretary;
- Registry Administrator;

- Relevant Senior Lecturer/Personal Tutor or their nominee.or Director of Apprenticeships or their nominee

**9.2** The Panel should be scheduled to convene after the deadline for submission of Extenuating Circumstances forms has passed at the end of the Semester, but before the Board of Examiners has met.

**9.3** All cases will be discussed with utmost confidentiality and members of the ECP must not discuss cases outside the meeting.

**9.4** The ECP will report recommendations relating to progress and award decisions to the relevant Board of Examiners. For reference see [Academic Regulations: Part 2: Assessment, Progression and Award](#)

**9.5** A student is entitled to know the outcome of their submission; however, details on the discussions held at the Panel meeting will not be disclosed.

## **10 Appeals**

- 10.1** A student cannot appeal against the decision of the ECP. If further evidence becomes available, which was not available at the time of the original application, the student can present this for consideration through the Assessment Appeals Procedure. Information regarding the procedure for making an appeal may be found on the [UCB website](#).

## **11 False Claims**

**11.1** Submitting a false claim could be regarded as an attempt to gain an unfair advantage and could constitute a breach of discipline under the University's disciplinary procedure.

## APPENDIX 1 Extenuating Circumstances Evidence Guidance

Both the relevant application and corroborating evidence need to be provided to Registry, either by uploading online or emailing directly to [extenuating@ucb.ac.uk](mailto:extenuating@ucb.ac.uk) at the same time or not later than 10 working days after the application submission and before the Board of Examiners meeting (working day is deemed to be Monday- Friday excluding weekends and Bank Holidays and days on which UCB is closed).

There may be instances where evidence is not yet available; the student should inform Registry when they expect to receive it.

Examples of potentially valid Extenuating Circumstances and evidence:

Criteria	Examples of appropriate evidence
<p><b>Significant or serious illness, accident or injury</b></p> <p>The illness/injury, either physical or mental, prevents the student from completing an assessment at the specified time, or will have a significant negative effect on the student's performance on the date an assessment is taking place.</p> <p>OR</p> <p>Flare up/new diagnosis or significant deterioration of a long-term condition, either physical, or mental which affects the student to a greater extent than usual. It prevents the student from completing an assessment at the specified time or will have a significant negative effect on the student's performance on the date an assessment is taking place or due for submission.</p> <p>OR</p> <p>Late diagnosis of a long-term medical condition which has prevented the student from completing an assessment at the specified time or had a significant negative effect on the student's performance.</p>	<p>Letter from a GP/Consultant/Hospital/Counsellor:</p> <ul style="list-style-type: none"> <li>• On Letterhead</li> <li>• In English</li> <li>• Stamped and Dated</li> <li>• Signed</li> </ul> <p>Stating the following:</p> <ul style="list-style-type: none"> <li>• Brief information about the student's health</li> <li>• Dates of any consultations and outcomes of the meetings</li> <li>• Dates of the affected period of time</li> <li>• Details of any effects medication or treatment had on the student</li> <li>• Information on how the illness has affected the student's performance and ability to complete assessments</li> </ul> <p>Registry may not accept a 'fit note' as sole evidence.</p> <p>Registry will not accept letters from a GP that states the student 'told him/her that they had been ill'.</p> <p>Appointment letters may be relevant i.e. if an appointment clashes with an examination.</p>
<p><b>Recent death or serious illness of a close family member or dependant</b></p> <p>The recent death of a close family member or partner, close to the date</p>	<p>Copy of the Death Certificate</p> <p>OR</p> <p>Copy of the Funeral Booklet</p>

the assessment is due. This prevents the student from completing an assessment at the specified time or will have a significant negative effect on the student's performance on the date an assessment is taking place or due for submission.	OR  In the case of a serious injury any medical evidence as stated above.
<b>Family crisis or emergency direct affecting the student</b>  Significant caring responsibilities or significant problems in the student's personal and domestic life that prevents the student from completing an assessment at the specified time or will have a significant negative effect on the student's performance on the date an assessment is taking place or due for submission.	Letter from a relevant authority e.g. School, Council, Solicitor, medical professional employer, explaining the relevant situation.  OR  If related to a crime, then a police report and crime number.
<b>Absence covered by Court Attendance</b>  Attendance at Court as a witness, defendant, plaintiff, or jury member on the date an assessment is due or leading up to assessment deadline.	Official correspondence from the Court or Tribunal Authority showing that the request for deferral has been rejected.
<b>Absence covered by Paternity Leave</b>  Paternity Leave that prevents the student from completing an assessment at the specified time or will have a significant negative effect on the student's performance on the date the assessment is taking place or due for submission.	Official correspondence from the student's employer.  OR  Copy of Birth Certificate
<b>Exceptional and unforeseen financial hardship</b> Significant financial problems in the student's personal life that prevents the student from completing an assessment at the specified time or will have a significant negative effect on the student's performance on the date an assessment is taking place.	Letter from Student Loans Company, Bailiffs, Local Authority, Landlord, Court orders etc.  OR  Bank Statement
<b>Other</b> Any exceptional, unforeseen circumstances that do not meet any of the criteria above.	Appropriate evidence from relevant authority

Obtaining evidence from the UCB Health and Wellbeing team

The UCB Health and Wellbeing team will only be able to provide evidence for Extenuating Circumstances if the student meets the following criteria:

- The student was receiving therapeutic intervention from the team during the period they are claiming mitigation for
- Experience significant impairment to their mental health
- The student had a minimum of three sessions during that period
- The student had no other engagement with external providers during that period

All requests must be emailed to [counselling@ucb.ac.uk](mailto:counselling@ucb.ac.uk)
