Are there any changes to the content of the course, compared with what was agreed previously?

No

Are there any changes to the assessment methods we are using?

No

Are there any changes to previously advertised field trips, placements, enrichment activities or other external activities?

Due to Covid 19, placement will not take place during Semester one. To ensure you will gain the number of hours allocated for the year, a teaching module allocated to semester two will be taught in semester one and there will be two placements in semester two.

When might what is set out above change?

We intend to use the teaching methods set out above for the whole of Semester 1 of the 2020-21 academic year.

If there are more severe restrictions on movement or gatherings as a result of changed government guidance (e.g. in the event of another wave of Coronavirus), teaching that is planned to be on campus may have to be moved online. In that instance all of the face-to-face teaching for your course would be online until restrictions are lifted.

At the moment we intend that semester 2 teaching will be on campus and face-to-face for all students on this course, although we will continue to make use of our extensive online resources to supplement on-campus teaching. However, if restrictions on movement or group size continue, we would need to continue to offer your course in a blended way, in a similar pattern to that described above. We will let you know as soon as possible if we think that is likely to happen, but decisions may need to be taken at short notice where we are obliged to act on changes to national or local advice.
