

Teaching in Semester 2 2020-21

Programme – **Specialist Hair and Media Make-up**

Level of Study – 4

Teaching pattern in 2020-21 academic year:

We will be using a blended learning approach to deliver your SHMM programme. Each week you will be timetabled for a day of live, remote learning for theoretical aspects of the programme, assignment launches, demonstrations, industry speakers, interactive learning activities etc. You will then be based on Campus for a day each week to carry out the practical parts of your programme, interact with your group and engage in face to face delivery. Some of your modules will be taught in blocks (of 7 weeks) and others will run across the full semester (12 weeks). This is so that we will be able to maintain contact with groups on Campus in a secure and safe environment, whilst under the restrictions of COVID 19. On campus, you will be part of a ‘learning bubble’ or group of around 10 students of which we will keep you assigned for the semester. Therefore, your practical teaching will be intense and bespoke to your individual learning needs. In order to ensure your safety, you will be expected to comply with regulations, which include the wearing of PPE when in contact with models.

Tutorial/pastoral care will be available as always through personal tutorial sessions throughout the full semester, these will take place in a variety of formats depending upon your requirements but include telephone, remote and face to face meetings.

Are there any changes to the content of the course, compared with what was agreed previously?

There will be less opportunity to undertake extra-curricular practical workshops until restrictions lift. These are not part of your formal teaching, and are optional, but we offer them to give you extra time to practise your existing skills and learn new ones. We will make sure that once restrictions are lifted these workshops will be offered again.

Are there any changes to the assessment methods we are using?

Our assessment methods remain consistent; any minor changes have taken place through the normal module review process.

Are there any changes to previously advertised field trips, placements, enrichment activities or other external activities?

Placements are likely to resume when the COVID restrictions are relaxed or lifted. Until then, placements will not be possible.

When might what is set out above change?

We intend to use the teaching methods set out above for the whole of Semester 2 of the 2020-21 academic year.

If there are more severe restrictions on movement or gatherings as a result of changed government guidance (e.g. in the event of another wave of Coronavirus), teaching that is planned to be on campus may have to be moved online. In that instance your lectures, seminars and small group teaching would be online and we would postpone your practical sessions until campus teaching became possible again.
