

Teaching in Semester 1 2020

Programme – BA (Hons) Specialist Hair and Media Make-up

Level of Study – 6

Teaching pattern in 2020-21 academic year:

In semester one, we will be using a blended learning approach to deliver your SHMM programme. Each week you will be timetabled for a day of live, remote learning for key aspects of the programme, assignment launches, demonstrations, industry speakers, interactive learning activities etc. You will then be based on Campus for a compulsory 'Independent Practice' session each week to carry out the practical parts of your programme, interact with your group and prepare your practical work. This is so that we will be able to maintain contact with groups on Campus in a secure and safe environment, whilst under the restrictions of COVID 19.

On campus, you will be part of a 'learning bubble' or group of around 10 students of which we will keep you assigned for the semester. Tutorial/pastoral care will be available as always through personal tutorial sessions throughout the full semester, these will take place in a variety of formats depending upon your requirements but include telephone, remote and face to face meetings.

At Levels 5 and 6, students undertake a Graduate Advantage Scheme, this will continue with adaptations to practical elements that are in breach of COVID-19 safety guidance.

Are there any changes to the content of the course, compared with what was agreed previously?

There will be less opportunity to undertake extra practical workshops until restrictions lift. However, we will be encouraging you to practice your skills outside of University by building your Kick Start kit and adding to this when your able.

Are there any changes to the assessment methods we are using?

Our assessment methods remain consistent; any minor changes have taken place through the normal module review process.

Are there any changes to previously advertised field trips, placements, enrichment activities or other external activities?

Placements are likely to resume when the COVID restrictions are relaxed or lifted. Until then, placements will not be possible.

When might what is set out above change?

We intend to use the teaching methods set out above for the whole of Semester 1 of the 2020-21 academic year.

If there are more severe restrictions on movement or gatherings as a result of changed government guidance (e.g. in the event of another wave of Coronavirus), teaching that is planned to be on campus may have to be moved online. In that instance [all of the face-to-face teaching for your course would be online until restrictions are lifted/ your lectures, seminars and small group teaching would be online and we would postpone your practical sessions until campus teaching became possible again.

At the moment we intend that semester 2 teaching will be on campus and face-to-face for all students on this course, although we will continue to make use of our extensive online resources to supplement on-campus teaching. However, if restrictions on movement or group size continue, we would need to continue to offer your course in a blended way, in a similar pattern to that described above. We will let you know as soon as possible if we think that is likely to happen, but decisions may need to be taken at short notice where we are obliged to act on changes to national or local advice.
