

FE Bursary Support Policy

2025-26

Introduction

1.1 Bursary support funds are provided by the Department for Education (DfE) and West Midlands Combined Authority (WMCA) to support those students most in need to meet the costs of accessing and participating in education. This funding is used to support with costs that include but are not limited to travel, childcare, essential equipment/trips, free meals and where applicable hardship payments.

The funding is broken down into the following categories:

- ❖ Section 2 - 16 – 19 Bursary Fund
- ❖ Section 3 - 16 – 19 Bursary Fund for Young People in Vulnerable Groups
- ❖ Section 4 - 19+ Discretionary Learner Support Fund
- ❖ Section 5 - Advanced Learner Loan Bursary

1.2 The DfE publishes guidance which sets out the criteria for financial support for students and University College Birmingham set its criteria for distributing this funding in accordance with the guidelines provided - [16 to 19 Bursary Fund guide: 2025 to 2026 - GOV.UK](#)

1.3 UCB's Bursary Support Policy will ensure equitable access and administration of the funds with guidelines to maximise support for students facing financial hardship as a barrier to learning. The policy is designed to ensure that funding reaches those students who are most in need of financial support and therefore, assessment and awards are made on actual financial need.

3.3 Support available

Each student who qualifies for the Vulnerable Bursary will be entitled to funding up to the value of £1,200 per academic year, based on an individual assessment of the support required to access education. The amount awarded will depend on the financial need for support to help with the costs of attending college and is not guaranteed at £1,200.

The funds will be used for educational purposes, for example: a travel pass, college meals, uniform and equipment costs.

We can also provide support with:

- Trips that are a compulsory part of the course

Vulnerable Bursaries are designed to help students overcome the individual financial barriers to participation that they face, and institutions must ensure the funds go to those who genuinely need them. No student will automatically be awarded funding without an assessment of the level of need they have. If there are additional participation needs that impact on you attending college, these needs will be assessed.

Students will be awarded the amount of support they need to participate, based on an assessment of the actual costs they have and will not be automatically awarded £1,200. 6.4. All awards are subject to periodic review and students may be asked to provide evidence as to the use of funds awarded to support continued eligibility to funds.

6.5 All students have an obligation to update Student Services if household income or circumstances change during the academic year which may affect their eligibility for funding.

6.6 Students and their guardians are responsible for giving truthful and accurate information. If giving false or incomplete information leads to incorrect payments or overpayments this may result in future payments being stopped and any incorrectly paid funds being recovered. It may also result in a referral to the police with the possibility of the student or their guardians facing prosecution.

7. Supporting Principles

7.1 Budget for the discretionary and advanced learner loan funding is finite; students who are eligible for support are not automatically entitled to it, with the exception of the 16-19 Vulnerable Bursary.

7.2 In the event of limited availability of funding priority will be given to those in most financial need. This includes students who are eligible for the vulnerable bursary along with any student's whose household income is below £21,000.00.

7.3 Awards will be conditional on the learner meeting standards set by the College in terms of their attendance, progress, behaviour and conduct. The expected attendance standard is 90%. Students may be asked to attend a meeting with the financial support team for support to continue if the attendance becomes a concern.

7.4 Equipment given to students on loan remains the property of the College. Students will be asked to return this at the end of their course.

7.5 Students who withdraw from the College may be asked to either return their bus pass/ equipment/ uniform, or to reimburse the College. Any student who withdraws before the first week

of December will be required to return the kit purchased for them by college or reimburse for the amount paid for the kit.

7.6 Students have the right to appeal a decision on a funding award. To appeal the learner or member of staff must complete an appeal form. All appeals will be looked at by a senior member of the finance team.

This policy is correct at the time of publication. It may be subject to change on or before the next formal review due in mid-2026
