When might what is set out above change?

We intend to use the teaching methods set out above for the whole of Semester 1 of the 2020-21 academic year.

If there are more severe restrictions on movement or gatherings as a result of changed government guidance (e.g. in the event of another wave of Coronavirus), teaching that is planned to be on campus may have to be moved online. In that instance your lectures, seminars and small group teaching would be online.

At the moment we intend that semester 2 teaching will be on campus and face-to-face for all students on this course, although we will continue to make use of our extensive online resources to supplement on-campus teaching. However, if restrictions on movement or group size continue, we would need to continue to offer your course in a blended way, in a similar pattern to that described above. We will let you know as soon as possible if we think that is likely to happen, but decisions may need to be taken at short notice where we are obliged to act on changes to national or local advice.
